MANAGING DIRECTOR'S STATEMENTS 董事總經理報告

Review of Results

Profit for the year attributable to Owners of the Company decreased by HK\$271.8 million to HK\$103.8 million (2011: HK\$375.6 million), representing a decrement of approximately 72%. Basic earnings per share also decreased proportionately by approximately 73% to HK\$0.045 (2011: HK\$0.165).

In light of the fact that the new core businesses of the Group are still in their construction and expansion stages, there is hardly any material recurring income contribution for the time being. To mitigate the effect

MANAGING DIRECTOR'S STATEMENTS 董事總經理報告

Review of Results (Continued)

The other one is that the Group recognised significant unrealized loss in respect of the fair value changes of certain financial investments. The Group invested in different types of financial investments which are carried at fair values. The Group recognized a net fair value gain of approximately HK\$1.8 million from all those financial investments in 2011 while there is a net fair value loss of approximately HK\$160.5 million in 2012. The fair value loss in 2012 was mainly attributable to the significant decrease in the fair value of the shares in Winsway Coking Coal Holdings Limited ("Winsway Coking Coal") amounting to approximately HK\$133.6 million. The Group also recognized a fair value loss of approximately HK\$39.8 million in respect of the exchangeable bond which is exchangeable into share of CGN Mining Company Limited ("CGN Mining") acquired during the year.

Sales of petrochemical products/Cost of sales and services

The increase was mainly due to the time effect of booking the relevant sales and cost of sales of TZ United East. TZ United East was accounted for as a subsidiary commencing from September 2011.

Gain on disposal of subsidiaries

The one-time gain represents the gain recognized upon the disposal of the Group's entire investment in a subsidiary, which owns the Group's associate, CGNPC Huamei Investment Limited ("CGNPC Huamei") during the year.

Other income, gains and losses

The increase was due to the increase in interest income amounting to approximately HK\$62.6 million which, in turn, is mainly attributable to interest earned from the increased loan receivables during the year.

業績回顧(續)

另一原因是本集團確認關於若干財務投資的公允值變動所導致的重大未變現虧損。本集團投資持有若干以公允值列賬、不同種類的財務投資。於2011年度，本集團錄得來自所有該等財務投資的公允值收益淨額約1,800,000港元，然而於2012年度卻錄得公允值虧損淨額約160,500,000港元。2012年度之公允值虧損主要來自永暉焦煤股份有限公司(「永暉焦煤」)股份的公允值大幅下跌約133,600,000港元所致。本集團同時亦確認來自年內購入的、可轉換為中廣核礦業有限公司(「中廣核礦業」)股份的可交換債券的公允值虧損約39,800,000港元。

石油化工產品銷售 銷售及服務成本

增加主要是賬目計入泰州東聯化工的相關銷售及銷售成本的時間長短所致。泰州東聯化工從2011年9月開始以附屬公司方式列賬。

出售附屬公司收益

該一次性的收益乃來自年內出售本集團一間持有本集團之聯營公司、中廣核華美投資有限公司(「中廣核華美」)的附屬公司之全部權益所確認的收益。

其他收入、收益及虧損

增加主要是由於利息收入增加約62,600,000港元所致；其增加主要是年內應收貸款增加所賺取的利息所致。

MANAGING DIRECTOR'S STATEMENTS 董事總經理報告

Review of Results *(Continued)*

Administrative expenses

Increase in administrative expenses was mainly due to the inclusion of the administrative expenses of TZ United East for a whole year in 2012 as compared with approximately four months in 2011.

Gain on disposal of available-for-sale investments/ Non-controlling interests

The increase was mainly attributable to gain from the disposal of the entire interest in Shenzhen Zhongqingbao Interaction Network Co., Ltd. ("Zqgame") held under a non-wholly owned subsidiary amounting to approximately HK\$255.0 million. The increase in non-controlling interests was attributable to the share by non-controlling interest of the aforesaid profit.

Finance costs

Increase was mainly due to the increase in average borrowings outstanding during the year.

Business Review & Prospects

Property Investments, Development and Management

Properties Leasing

Gross rental income for the year decreased by 20% to HK\$36.4 million (2011: HK\$45.5 million). The decrease was mainly due to the fact that the Group has vacated and renovated the south residential block of East Gate Plaza for the purpose of selling individual flat unit to retail customers leaving only the north residential block and the commercial area for leasing purpose.

In light of the depressed property market and the tight regulatory measures enforced, Cinda Jianrun has suspended the negotiations for the property development opportunity located in the Chao Yang District of Beijing in 2011 and waiting for any indication of improvements. Inevitably the Directors aware that the prolonged measure against the property market will be tightened even further and that the property development sector will be adversely affected particularly after the recently promulgation of the new five guidelines. After re-assessment of the situation, Cinda Jianrun has decided to abort the property development project. In this regard, Cinda Jianrun will gradually realized its short and medium term investments and distribute the funds so realized back to its shareholders.

Petrochemical Products (Continued)

TZ United East (Continued)

In the current year, the market situation was reversed. The persistently increase in crude oil prices has pushed up raw material prices and the cost of production. In addition, the selling prices of methyl ethyl ketone, after the 3.11 Japan earthquake, has continue to drop in a fast paces to a level of lower than RMB10,000 per ton in the fourth quarter of 2011 in light of fall back in demand. In the mean time, 中石化揚子石化公司, the principal supplier of the raw materials for methyl ethyl ketone production, had changed its crude oil procession mechanism and reduced its raw material supply to TZ United East which has led to increase in purchasing cost of raw materials. As a result, TZ United East incurred operating loss in the year.

It is expected that TZ United East will complete its construction of the 1 million tons per year heavy oil production facility in 2013, which is capable of producing raw materials in excess of 200,000 tons per year for methyl ethyl ketone production. After that, the problem of raw materials sourcing will be solved. The competitiveness of methyl ethyl ketone will be enhanced.

石油化工產品(續)

泰州東聯化工(續)

於本年度，市場情況出現逆轉。持續上漲的原油價格推高了原料價格以及生產成本。此外，甲乙酮之售價經3.11日本地震事故後，卻由於需求萎縮而於2011年第四季度迅速並不斷下降至低於每噸人民幣10,000元水平。同時，甲乙酮主要原料供應商，中石化揚子石化公司，因加工技術路線的調整，減少了泰州東聯化工的原料供應，導致原料採購成本的增加。泰州東聯化工因此於本年度錄得經營虧損。

預期於2013年，泰州東聯化工建設的1,000,000噸年重油制烯烴裝置投產後，可生產200,000噸年以上的生產甲乙酮的原料，從根本上解決了生產甲乙酮原料來源問題。甲乙酮產品的競爭力將得到加強。

中海油氣

中海油氣泰州石化有限公司(「中海油氣」)為本集團實益持股23.03%的聯營公司。其主要業務是生產及銷售燃料油、基礎潤滑油、重交瀝青等產品。中海油氣目前擁有1,500,000噸年生產能力。

中海油氣的經營業績摘要如下：

Profit contribution	溢利貢獻	21.0	34.7	(40%)

Due to the reason that international crude oil prices has increased significantly and the price-control on selling prices of fuel oil in Mainland China during the year, the oil refinery sector was generally operating at a loss position. By adopting a differentiated product structure strategy, Zhong Hai You Qi was able to remain profitable in 2012. It is expected that Zhong Hai You Qi may further increase its profitability when there is improvement in the economic environment in next year.

由於年內國際原油價格大幅上漲以及中國內地對成品油施加價格調控，使煉油行業普遍錄得經營虧損。於2012年中海油氣努力實施差別化產品策略，成功保持盈利狀態。預計明年隨著經營環境的改善，中海油氣可望進一步提高其盈利能力。

The term of Loans is 24 months from drawdown date and bear interest charged at the rate of 10% per annum.

Auditor's Remuneration

The Group's consolidated financial statements for the year ended 31 December 2012, were audited by Deloitte Touche Tohmatsu ("Deloitte") at a total fees of approximately HK\$2.9 million. The said audit fee was approved by the Audit Committee and endorsed by the Board. In addition, the Group also paid fees of not more than HK\$0.2 million in aggregate to Deloitte Touche Tohmatsu for the provision of taxation services during the 2012.

The Audit Committee considers that the taxation services did not (in terms of the nature of the services and the amount of fees paid in relation to the audit fees) affect the independence of Deloitte.

Directors' Responsibility Statement

The Board acknowledges its responsibilities for the preparation of the financial statements of the Company for each financial year, which give a true and fair view of the state of the affairs, results and cash flow of the Group for that year in compliance with the relevant laws and disclosure provision of the Listing Rules.

In preparing the financial statements for the year ended 31 December 2012, the directors have selected suitable accounting policies and applied them consistently; adopted appropriate Hong Kong Financial Reporting Standards and Hong Kong Accounting Standards; made adjustments and estimates that are prudent and reasonable; and have prepared the consolidated financial statements on the going concern basis. Up to the date of this report, the directors are not aware of any material uncertainties that will seriously affect the going concern basis of the Group.

核數師酬金

本集團截至2012年12月31日止年度綜合財務報表由德勤關黃陳方會計師行(「德勤」)審核，核數費用總額約為2,900,000港元。該項核數費用已獲得審核委員會批准並得到董事會背書認可。此外，本集團於2012年度內，亦有向德勤支付總額不多予200,000港元的稅務服務費用。

審核委員會認為該等稅務服務費用(就服務性質及相對於核數費用的總額而言)並沒有對德勤的獨立性構成影響。

董事關於賬目的責任聲明

董事會確認其對各財政年度所編制的本公司財務報表的責任，該等財務報表應遵從有關法律及上市規則的披露規定，真確地反映本集團於該年度的業務狀況、業績及現金流。

在編制截至2012年12月31日止年度之綜合財務報表時，董事已選取合適的會計政策，並貫徹應用；採用適當的香港財務報告準則及香港會計準則；作出審慎及合理的調整估計；及按持續經營基準編制綜合財務報表。截至本報告日止，董事並不獲悉任何將會嚴重地影響持續經營基準的重大不確定因素。

(Continued)

HKFRS 9 Financial instruments

HKFRS 9 issued in 2009 introduces new requirements for the classification and measurement of financial assets. HKFRS 9 amended in 2010 includes the requirements for the classification and measurement of financial liabilities and for derecognition.

Key requirements of HKFRS 9 are described as follows:

- All recognised financial assets that are within the scope of HKAS 39 “Financial instruments: Recognition and measurement” are subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent reporting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.

2. 應用新訂及經修訂之香港財務報告準則(「香港財務報告準則」)(續)

香港財務報告準則第9號金融工具

於2009年頒佈的香港財務報告準則第9號引入金融資產分類及計量的新規定。於2010年修訂的香港財務報告準則第9號包括金融負債分類及計量以及終止確認的規定。

香港財務報告準則第9號之主要規定說明如下：

- 香港會計準則第39號「金融工具：確認及計量」範圍內所有已確認之金融資產其後按攤銷成本或公允值計量。具體而言，以收取合約現金流量為目標之商業模式持有及合約現金流量僅為支付本金及未償還本金之利息的債務投資，一般在其後之會計期末按攤銷成本計量。所有其他債務投資及股本投資在其後會計期末按其公允值計量。此外，根據香港財務報告準則第9號，實體可作出不可撤回之選擇，將股本投資(而非持作買賣)其後之公允值變動於其他全面收益呈列，惟僅有股息收入一般於入外

2. Application of New and Revised Hong Kong Financial Reporting Standards (“HKFRSs”)

(Continued)

HKFRS 9 Financial instruments (Continued)

- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, HKFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability’s credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value of financial liabilities attributable to changes in the financial liabilities’ credit risk are not subsequently reclassified to profit or loss. Under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss was presented in profit or loss.

HKFRS 9 is effective for the Group and the Company for annual period beginning on 1 January 2015, with earlier application permitted. The directors anticipate that the adoption of HKFRS 9 in future may have significant impact on amounts reported in respect of the Group’s and the Company’s financial assets, for example, the Group’s and the Company’s available-for-sale investments would be reclassified upon application of HKFRS 9 and certain of the Group’s and the Company’s available-for-sale investments currently measured at cost less impairment are required to measure at fair value. However, it is not practicable to provide a reasonable estimate of these effects until a detailed review has been completed.

2. 應用新訂及經修訂之香港財務報告準則(「香港財務報告準則」)(續)

香港財務報告準則第9號金融工具(續)

- 就指定為按公允值列入損益表的金融負債而言，香港財務報告準則第9號規定金融負債信貸風險變動應佔該負債公允值變動之金額於其他全面收益呈列，除非於其他全面收益確認負債信貸風險變動之影響將導致或擴大損益表之會計錯配，則作別論。金融負債之信貸風險變動應佔該金融負債公允值變動其後並不會重新分類至損益表。根據香港會計準則第39號，指定於為按公允值列入損益表之金融負債公允值變動的全數金額乃於損益表中呈列。

香港財務報告準則第9號於本集團及本公司2015年1月1日開始之年度期間生效，並可提早應用。董事預期，日後採納香港財務報告準則第9號或會對本集團及本公司金融資產之呈報金額有重大影響，舉例說，本集團及本公司之可供出售投資在採納香港財務報告準則第9號後將予重新分類，本集團及本公司現時按成本扣除減值列賬之若干可供出售投資規定按公允值列賬。然而，在完成詳細審閱之前，將不可能切實提供有關影響之合理估計。

2. Application of New and Revised Hong Kong Financial Reporting Standards (“HKFRSs”)

(Continued)

New and revised Standards on consolidation, joint arrangements, associates and disclosures

In June 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued, including HKFRS 10, HKFRS 11, HKFRS 12, HKAS 27 (as revised in 2011) and HKAS 28 (as revised in 2011).

Key requirements of these five standards are described below.

HKFRS 10 replaces the parts of HKAS 27 “Consolidated and separate financial statements” that deal with consolidated financial statements. HK(SIC) — INT 12 “Consolidation — Special purpose entities” will be withdrawn upon the effective date of HKFRS 10. Under HKFRS 10, there is only one basis for consolidation, that is, control. In addition, HKFRS 10 includes a new definition of control that contains three elements: (a) power over an investee, (b) exposure, or rights, to variable returns from its involvement with the investee, and (c) the ability to use its power over the investee to affect the amount of the investor’s returns. Extensive guidance has been added in HKFRS 10 to deal with complex scenarios.

2. Application of New and Revised Hong Kong Financial Reporting Standards (“HKFRSs”)

(Continued)

New and revised Standards on consolidation, joint arrangements, associates and disclosures

(Continued)

HKFRS 11 replaces HKAS 31 Interests in Joint Ventures. HKFRS 11 deals with how a joint arrangement of which two or more parties have joint control should be classified. HK(SIC) — INT 13 “Jointly controlled entities — Non-monetary contributions by venturers” will be withdrawn upon the effective date of HKFRS 11. Under HKFRS 11, joint arrangements are classified as joint operations or joint ventures, depending on the rights and obligations of the parties to the arrangements. In contrast, under HKAS 31, there are three types of joint arrangements: jointly controlled entities, jointly controlled assets and jointly controlled operations. In addition, joint ventures under HKFRS 11 are required to be accounted for using the equity method of accounting, whereas jointly controlled entities under HKAS 31 can be accounted for using the equity method of accounting or proportionate consolidation.

HKFRS 12 is a disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in HKFRS 12 are more extensive than those in the current standards.

In July 2012, the amendments to HKFRS 10, HKFRS 11 and HKFRS 12 were issued to clarify certain transitional guidance on the application of these five HKFRSs for the first time.

HKFRS 13 Fair value measurement (Continued)

HKFRS 13 will be adopted by the Group and the Company for the annual period beginning 1 January 2013 and that the application of the new standard is not expected to affect the amounts reported in the consolidated financial statements, but would result in more extensive disclosures about fair value measurements in the consolidated financial statements.

Amendments to HKAS 1 Presentation of items of other comprehensive income

The amendments to HKAS 1 “Presentation of items of other comprehensive income” introduce new terminology for the statement of comprehensive income and income statement. Under the amendments to HKAS 1, a ‘statement of comprehensive income’ is renamed as a ‘statement of profit or loss and other comprehensive income’ and an ‘income statement’ is renamed as a ‘statement of profit or loss’. The amendments to HKAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to HKAS 1 require items of other comprehensive income to be grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss; and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis — the amendments do not change the option to present items of other comprehensive income either before tax or net of tax.

香港財務報告準則第13號公允值計量(續)

本集團及本公司將於2013年1月1日開始之年度期間採納香港財務報告準則第13號，預期應用該項新準則不會影響綜合財務報表所報告之金額，但會導致綜合財務報表內有關公允值計量之更全面披露。

香港會計準則第1號其他全面收益項目之呈列之修訂本

香港會計準則第1號「其他全面收益項目之呈列」之修訂本為全面收益表及收益表引入新術語。根據香港會計準則第1號之修訂本，「全面收益表」改名為「損益及其他全面收益表」，而「收益表」則改名為「損益表」。香港會計準則第1號之修訂本保留以單一報表或兩份獨立但連續報表呈列損益及其他全面收益之選擇權。然而，香港會計準則第1號之修訂本規定其他全面收益項目須劃分為兩類：(a)其後不會重新分類至損益表之項目；及(b)於達成特定條件時，其後可重新分類至損益表之項目。其他全面收益項目之所得稅須按相同基準予以分配，修訂本並無改變按除稅前或除稅後呈列其他全面收益項目之選擇權。

3. Significant Accounting Policies (Continued)

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including special purpose entities) controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein.

Allocation of total comprehensive income to non-controlling interests

Total comprehensive income and expense of a subsidiary is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance (effective from 1 January 2010 onwards).

Changes in the Group's ownership interests in existing subsidiaries

When the Group loses control of a subsidiary, it (i) derecognises the assets (including any goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost, (ii) derecognises the carrying amount of any non-controlling interests in the subsidiary at the date when control is lost (including any components of other comprehensive income attributable to them), and (iii) recognises the aggregate of the fair value of the consideration received and the fair value of any retained interest, with any resulting difference being recognised as a gain or loss in profit or loss attributable to the Group. Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets.

業務合併

收購業務採用收購法入賬。業務合併之轉撥代價按公允值計量，而計算方法為本集團所轉讓之資產於收購日之公允值、本集團對所收購方原擁有人產生之負債及本集團於交換所收購方之控制權發行之股權之總額。有關收購之成本於產生時一般於損益表中確認。

於收購日期，所收購之可識別資產及所承擔之負債乃按彼等之公允值確認。

商譽是以所轉讓之代價、於所收購方中非控股權益所佔金額及收購方以往持有之收購方股權之公允值(如有)之總和，扣除於收購日期可供識別資產之收購及承擔之負債之淨值後，所超出之差額計量。倘重新評估後，所收購之可識別淨資產與所承擔之負債於收購日期之淨額高於轉讓之代價、非控股權益於所收購方中所佔金額以及收購方以往持有之收購方股權之公允值(如有)之總和，則差額即時於損益表內確認為議價購買收益。

非控股權益屬現時擁有者權益且於清盤時賦予其持有人可按比例分佔該實體之資產淨值，可初步按公允值或非控股權益應佔所收購方可識別資產淨值的已確認金額比例計量。

3. Significant Accounting Policies (Continued)

Business combinations (Continued)

The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value or, when applicable, on the basis specified in another Standard.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost less any accumulated impairment losses, if any, and is presented separately in the consolidated statement of financial position.

For the purposes of impairment testing, goodwill arising from an acquisition is allocated to each of the relevant cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination.

3. 主要會計政策(續)

業務合併(續)

計量基準視乎每項交易而作出選擇。其他種類的非控股權益乃按其公允值或(如適用)其他準則規定之基準計量。

當業務合併到完成階段，本集團之以往持有收購方之股本權益需於收購日(即本集團得到控制權之日期)重估到公允值，結果之盈利或虧損，如有，都於損益表確認。在收購日前所收購方權益於其他全面溢利之確認金額應重列至損益表(此方法適用於出售該權益)。

商譽

因收購業務而產生之商譽是按成本值減任何累計減值虧損，如有，並會於綜合財務狀況表內獨立呈列。

就減值測試而言，因收購而產生之商譽乃被分配至預期從合併之協同效應中受益之各有關現金產生單位，或一組現金產生單位。

3. Significant Accounting Policies (Continued)

Goodwill (Continued)

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, and whenever there is an indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that reporting period. When the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit, and then to the other assets of the unit on a pro rata basis based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

Investments in subsidiaries

Investments in subsidiaries are stated in the Company's statement of financial position at cost (including deemed capital contribution), less any identified impairment loss. Income from investments in subsidiaries is accounted for by the Company when the Company's right to receive the dividend payment has been established.

Investments in associates

An associate is an entity over which the investor has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

商譽(續)

已獲配商譽之現金產生單位每年及凡單位有可能出現減值跡象時進行減值測試。於報告年度因收購而產生的商譽，獲分配商譽的現金產生單位需要於財政年度完結前作減值測試。當現金產生單位之可回收金額少於其賬面值時，減值虧損首先被分配以削減分配至該單位的商譽，任何及其後以單位內各資產之賬面值為基準按比例分配至並削減該單位之其他資產之賬面值。商譽之任何減值虧損乃直接於損益內確認。已確認之商譽減值虧損於其後期間不予以撥回。

於出售有關現金產生單位時，計量出售收益應包括相關應佔商譽的金額。

附屬公司投資

附屬公司投資是按成本(包括視作之資本注資)扣除已識別的減值虧損列賬於本公司的財務狀況表中。本公司計算附屬公司投資的收入是基於本公司獲確認後收取派付股息的權利。

聯營公司投資

聯營公司指投資方對其行使重大影響力而非附屬公司或合營公司之權益。重大影響指有權參與投資對象之財務及營運政策之決定，但並非對該等政策有控制權或共同控制權。

Investments in associates (Continued)

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

Upon disposal of an associate that results in the Group losing significant influence over that associate, any retained investment is measured at fair value at that date and the fair value less costs to sell is recognised in the profit or loss.

The carrying amount of the investment in an associate is determined in accordance with HKAS 39.

At the end of the reporting period, the carrying amount of investments in associates was HK\$146.6 million (2011: HK\$146.6 million).

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets and liabilities of the jointly controlled entity recognised at the date of acquisition is recognised as goodwill, which is included within the carrying amount of the investment.

Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in a jointly controlled entity. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 "Impairment of assets" as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Upon disposal of a jointly controlled entity that results in the Group losing joint control over that jointly controlled entity, any retained investment is measured at fair value at that date and the fair value is regarded as its fair value on initial recognition as a financial asset in accordance with HKAS 39. The difference between the previous carrying amount of the jointly controlled entity attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the jointly controlled entity. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that jointly controlled entity on the same basis as would be required if that jointly controlled entity had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by that jointly controlled entity is attributable to the retained interest, it is included in the determination of the gain or loss on disposal of the jointly controlled entity.

Property, plant and equipment including leasehold land (classified as finance lease) and buildings held for use in production or supply of goods or services, or for administrative purposes (other than construction in progress) are stated in the consolidated statement of financial position at cost or fair value less subsequent accumulated depreciation and accumulated impairment loss, if any.

Construction in progress includes property, plant and equipment in the course of construction for production or for its own use purposes. Construction in progress is carried at cost less any recognised impairment loss. Construction in progress is classified to the appropriate category of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Leasehold land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the consolidated statement of financial position at their revalued amount, being the fair value at the date of revaluation less any subsequent accumulated impairment losses and subsequent accumulated depreciation. Revaluations are performed with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair values at the end of the reporting period.

Any revaluation increase arising on revaluation of leasehold land and buildings is recognised in other comprehensive income and accumulated in asset revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. A decrease in net carrying amount arising on revaluation of an asset is recognised in profit or loss to the extent that it exceeds the balance, if any, on the asset revaluation reserve relating to a previous revaluation of that asset. On the subsequent sale or retirement of a revalued asset, the attributable revaluation surplus is transferred to retained profits.

Depreciation is provided to write off the cost or fair value of property, plant and equipment other than construction in progress less residual value over their estimated useful lives, using the straight line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when a group entity becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

The Group's financial assets are classified into one of three categories: financial assets at fair value through profit or loss ("FVTPL"), loans and receivables, and available-for-sale financial assets. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; asset rl

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated or not classified as financial assets at FVTPL, loans and receivables or held-to-maturity investments.

Equity securities traded in an active market and debt securities held by the Group that are classified as available-for-sale are measured at fair value at the end of each reporting period. Changes in the carrying amount of available-for-sale debt securities relating to interest income calculated using the effective interest method and dividends on available-for-sale equity investments are recognised in profit or loss. Other changes in the carrying amount of available-for-sale financial assets are recognised in other comprehensive income and accumulated under the heading of investment revaluation reserve. When the investment is disposed of or is determined to be impaired, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss (see the accounting policy in respect of impairment loss on financial assets below).

Dividends on available-for-sale equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established.

For available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, they are measured at cost less any identified impairment losses at the end of the reporting period (see accounting policy on impairment loss on financial assets below).

For financial assets carried at amortised cost, the amount of impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, other receivables, amounts due from associates/jointly controlled entity/subsidiaries, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When other receivables, trade receivables, amounts due from associates/jointly controlled entity/subsidiaries are considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

When an available-for-sale financial asset is considered to be impaired, cumulative gains or losses previously recognised in other comprehensive income are reclassified to profit or loss in the period in which the impairment takes place.

就按成本列賬之金融資產而言，減值虧損數額按資產賬面值與按類似金融資產之現行市場回報率折讓估計未來現金流量之現值間之差額計算。有關減值虧損不會於繼後期間回撥。

金融資產之賬面值因其減值虧損而直接減少，惟應收賬款、其他應收款及應收聯營公司 共同控制公司 附屬公司款之賬面值則透過使用撥備賬減少。所有撥備賬賬面值之變動於損益表內確認。倘應收賬款、其他應收款及應收聯營公司 共同控制公司 附屬公司款應收賬款被認為不可收回，則於撥備賬內撇銷。其後收回之已撇銷數額計入損益表。

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Impairment losses on available-for-sale investments will not be reversed through profit or loss. Any increase in fair value subsequent to impairment loss is recognised directly in other comprehensive income and accumulated in investment revaluation reserve. For available-for-sale debt investments, impairment losses are subsequently reversed through profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Impairment losses on assets other than goodwill (see the accounting policy in respect of goodwill above)

At the end of the reporting period, the Group reviews the carrying amounts of its assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

3. Significant Accounting Policies (Continued)

Impairment losses on assets other than goodwill (see the accounting policy in respect of goodwill above) (Continued)

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount.

An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under that standard.

Where an impairment loss subsequently reverses, the carrying amount of the assets (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another standard, in which case the reversal of the impairment loss is treated as a revaluation increase under that standard.

3. 主要會計政策(續)

除商譽外之資產減值虧損(見上述有關商譽之會計政策)(續)

可回收金額是公允值減出售之成本及使用價值之較高者。於評估使用價值，估計將來現金流量以稅前貼現率去計算其現值以反映現時市場評估金錢的時間價值及該資產之風險，將來現金流量之估計並不可調整。倘若資產之可回收金額(或現金產生單位)之估計是少於其賬面值，則該資產之賬面值(或現金產生單位)需減少到其可回收金額。

一項減值虧損即時在損益表內被確認，除非有關資產是根據另一項準則以重估值列賬，則有關減值虧損將根據該準則而被視為重估值減少。

當減值虧損於其後撥回，有關資產(或現金產生單位)賬面值將予調升至經修正之估計可收回金額，惟僅限於經調升後之賬面值不會超過有關資產於先前年度未有減值虧損前之賬面值。減值虧損之撥回即時被確認為收入，除非有關資產是根據另一項準則以重估值列賬，則有關減值虧損之撥回將根據該準則被視為重估值增加。

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before taxation as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Taxation (Continued)

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

遞延稅項資產的賬面值於各本報告期末進行檢討，並於沒可能會有足夠應課稅溢利恢復全部或部份資產價值時作出調減。

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

Leasehold land and building

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases, in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

Accordingly, deferred taxation in relation to these investment properties has been measured based on the tax consequences of recovering the carrying amounts entirety through sale.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Fair value of investment properties

Fair value measurements recognised in the statement of financial position

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Notes:

- (a) Unlisted equity securities represent investments in unlisted equity securities issued by private entities. The business of these companies include, but not limited to power, winery and financial services. They are measured at cost less impairment at the end of the reporting period because the range of reasonable fair value estimates is so significant that the directors are of the opinion that their fair values cannot be measured reliably. During the year ended 31 December 2012, gain on disposal of unlisted available-for-sale investments of HK\$54,683,000 (2011: HK\$99,640,000) has been recognised in profit or loss.

43. Amounts due to Subsidiaries

The Company

The amounts are unsecured, non-interest bearing and repayable on demand.

44. Deemed Acquisition of a Subsidiary

On 31 August 2011, both equity owners of a jointly controlled entity, TZ United East, approved certain amendments in its memorandum and articles of association. Pursuant to the amended memorandum and articles of association, the number of directors in the board of directors of TZ United East is 9 of which 5 directors are appointed by the Group and 4 directors are appointed by the other equity owner. In the opinion of the directors, the increase in voting power due to this amendment caused the Group to obtain control over TZ United East's financial and operating policies upon the amendment of the memorandum and articles of association since major financial and operating policies require simple majority of votes in the board of directors' meetings. As a result, TZ United East was deemed to be acquired by the Group and became a non-wholly owned subsidiary of the Group. At the date of the deemed disposal, the Group's previously held interest in TZ United East is remeasured at fair value and the resulting gain of HK\$35,072,000 was recognised in profit or loss during the year ended 31 December 2011.

43. 應付附屬公司款

本公司

44. 視同收購一間附屬公司

於2011年8月31日，一間共同控制公司，泰州東聯化工之雙方權益擁有人批准其公司法規及章程的若干修訂。根據該公司法規及章程的修訂，泰州東聯化工之董事會董事人數為9位，其中5位由本集團委任而4位董事由其他權益擁有人委任。董事意見認為，因主要財務及營運政策要求董事會會議之大多數投票通過，由於此修訂而增加投票權引致本集團取得泰州東聯化工之財務及營運政策之控制權。因此，泰州東聯化工被視為本集團收購並成為本集團非全資擁有附屬公司。於視同出售日，本集團原先持有之泰州東聯化工之權益以公允值重新計算並於2011年12月31日之年內確認35,072,000港元之收益於損益表中。

Notes:

- (a) Acquisition-date fair value of interest in a jointly controlled entity previously held has been remeasured to its fair value. Fair value of the jointly controlled entity is determined by business valuation based on the application of discounted cash flow method. That calculation uses cash flow projection based on financial budgets approved by management covering a five-year period based on an estimate growth rate of 2% to 7% with a discount rate of 19.6%. Cash flows after the five-year period are extrapolated at 3% growth rate. Another key assumption for the business valuation is the budgeted revenue and gross margin, which is determined based on TZ United East's past performance and management's expectations for the ng
