Review of Results (續)

Lastly, there was a one-time gain on disposal of a subsidiary amounting to approximately HK\$126.3 million in the previous year. The Group disposed its entire investment in a subsidiary, which owned the Group's associate, CGNPC Huamei Investment Limited ("CGNPC Huamei").

Sales of Petrochemical Products/Cost of Sales and Services

Sales of petrochemical products and cost of sales and services decreased significantly was mainly due to Tai Zhou United East Petrochemical Company Limited ("TZ United East") suspended its productions for approximately six months during the year in light of the shortage of raw materials.

Other Income, Gains and Losses

Increase was mainly due to a government grant amounting to approximately HK\$73.7 million was recognised by TZ United East to compensate certain expenses and losses incurred by TZ United East in the current year.

Other Expenses

It represented the direct costs such as wages, depreciation expenses, consumables and other direct attributable costs incurred by TZ United East during suspended period of operations.

Gain on Disposal of Available-for-sale Investments/ Profit for the year attributable to Non-controlling Interests

The gains in the current and the prior year were generated from different investments. The magnitude of profits so realised were different. The decrease in profit for the year attributable to non-controlling interest was mainly contributed by share of the significant gain amounting to approximately HK\$255.0 million from the disposal of Zqgame held under a non-wholly owned subsidiary in previous year.

業績回顧(續)

最後，去年錄得金額約126,300,000港元之一次性的出售一家附屬公司收益。本集團於去年出售持有本集團聯營公司中廣核華美投資有限公司(「中廣核華美」)的附屬公司全部投資。

石油化工產品銷售 銷售及服務成本

石油化工產品銷售及銷售及服務成本顯著減少主要是泰州東聯化工有限公司(「泰州東聯化工」)於年內因缺乏原材料的情況下而暫停生產約6個月所致。

其他收入、收益及虧損

增加主要是泰州東聯化工年內確認一筆政府補貼約73,700,000港元作為補償泰州東聯化工於年內發生的若干費用及虧損所致。

其他費用

為泰州東聯化工於暫停生產期間發生的直接費用如薪金、折舊支出、消耗品及其他直接相關的成本。

出售可供出售投資收益 非控制權益之年內 應佔溢利

本年度及去年之收益乃來自不同的投資。套現所得的收益也不同。非控制權益年內應佔溢利減少主要是攤佔一家非全資擁有的附屬公司於去年出售中青寶而確認約255,000,000港元巨額收益貢獻所致。

The one-time gain represented the gain recognised upon the disposal of the Group's entire investment in a subsidiary, which owned the Group's associate, CGNPC Huamei in last year.

Investment Properties

Property, Plant and Equipment

Increase was due to the additions of construction in progress in respect of the 1.0 million tons per year heavy oil production facility by TZ United East during the year.

Amounts due from Associates

The increase was mainly due to short-term advance of working capital made to certain associates by the year end of 2013.

出售一家附屬公司收益

該一次性的收益為於去年出售本集團一家附屬公司之全部投資所確認的收益，該附屬公司持有本集團的聯營公司中廣核華美。

投資物業

減少主要是年內銷售東環廣場單位所致。

物業、廠房及設備

增加是由於年內泰州東聯化工的100萬噸年重油制烯烴裝置的在建工程添置所致。

應收聯營公司款

增加主要是於2013年年末墊付短期營運資金予若干聯營公司所致。

附有嵌入式衍生工具的應收貸款

此乃於2012年投資認購由中國鈾業發展有限公司發出票面利息為5%的5年期可換股債券。

Available-for-sale Investments

The decrease in the aggregated carrying balances was mainly due to the decrease in the market value of investments in Winsway Coking Coal and partial disposal of the shares in CUP.

Borrowings

Increase in total borrowings was mainly due to the building loans raised by TZ United East in the construction of its 1.0 million tons per year heavy oil production facility during the year.

Accrued Charges, Rental Deposits and Other Payables

物業投資、管理及發展

物業租賃

北京東環置業有限公司(「北京東環」)本年度租金收入約70,100,000港元(2012年:36,400,000港元)。租金收入增加主要是東環廣場改造工程完結後出租率獲得改善所致。可是物業租賃分部於年內錄得分部溢利減少。主要原因是重估投資物業於去年產生收益約44,000,000港元,而於本年度卻錄得虧損約2,400,000港元。

物業管理

北京銀達物業管理有限責任公司(「銀達」)本年度之物業管理費收入約為207,900,000港元(2012年:178,000,000港元),增幅約17%。分部盈利為約4,600,000港元(2012年: 零)

金融投資

本集團策略性地投資於若干中國企業。該等企業具有獨立上市之潛力。其中部分亦已上市。於2013年12月31日，該等策略性投資之賬面值總額約為480,100,000港元(2012年：699,600,000港元)，其各自的份額詳列如下：

永暉焦煤(香港：1733)

本集團持有約146,500,000股永暉焦煤股份。由於永暉焦煤的市場收市價於年內及報告期末下跌至一個嚴重低於本公司賬面成本的水平而導致需要確認減值虧損，於2013年已確認減值虧損金額約126,

中國銀聯

中國銀聯是中國內地最大的銀行卡聯合組織及信用卡發行商，具有非常亮麗的業務前景。於2013年1月1日，本集團持有人民幣93,000,000元(相當於約115,700,000港元)(並且實益擁有約15,500,000股)投資於中國銀聯。年內，本集團透過出售8,000,000股中國銀聯股份之實際權益，確認盈利約163,700,000港元。與2012年12月31日之結餘比較，賬面值減少的原因是上述出售股份所致。

中材股份(香港：1893)

本集團實益擁有約23,100,000股中國中材股份有限公司(「中材股份」)之外資法人股份，該等股份經向中國證券監督委員會作出申請後可自由流通。由於中材股份之市值長時間大幅低於賬面值，本集團因而於2013年度確認減值虧損25,000,000港元。與2012年12月31日之結餘比較，賬面值減少的原因是確認減值虧損所致。

百年德誠

於2013年1月1日，本集團持有北京百年德誠創業投資中心(「百年德誠」)人民幣80,000,000元(相當於約99,500,000港元)的投資。百年德誠是一個由專業基金經理獨立管理的私募基金。該基金將主要投資於具有獨立上市潛力的目標投資方的股本權益、債權及可換股票據。本集團投資該基金的目的，是藉以享受該基金經理的專業技能及商業網絡所能帶來的成果。年內，百年德誠以成本價贖回本集團持有的部分基金單位，金額共人民幣35,000,000元(相當於約44,800,000港元)。賬面值減少是上述贖回行動所致。

West King

On 1 September 2011, the Company acquired 20% equity interest in West King (Hong Kong) Investment Limited ("West King") at a consideration of RMB50.0 million (equivalent to approximately HK\$62.2 million). Since the Group does not have significant influence in West King, the Group therefore accounted for its investment in West King as an investment rather than as an associate. Based in Yinchuan, West King is a wine brewer in the north-western district on the Mainland China and operates a well-known brand named "老銀川" in that district. Its white wine and health wine have a relatively high market share in the western district.

Jiangxi Copper

The Group invested RMB100.0 million (equivalent to approximately HK\$124.6 million) for an indirect interest of 10% in Jiangxi Copper International Trading Co., Ltd. ("JC International"). JC International is a 60% owned subsidiary of Jiangxi Copper Company Limited and is principally engaged in the trading of copper on both the spot and futures market.

During the year, the Group received dividend income amounting to approximately RMB8.4 million (equivalent to approximately HK\$10.7 million) from JC International.

江銅國際

本集團投資人民幣100,000,000元(相當於約124,600,000港元)，間接持有江銅國際貿易有限公司(「江銅國際」)10%股本權益。江銅國際為江西銅業股份有限公司持股60%之附屬公司，其主營業務是於現貨及期貨市場銷售銅。

陽泉天泰(續)

陽泉天泰為山西省煤礦企業兼併重組整合領導組辦公室認可的整合主體，於山西省進行煤炭業的合併及重組，並依法積極參與煤炭資源整合、開發、利用、對外投資和項目建設等業務。

陽泉天泰於平定、寧武、翼城及蒲縣地區透過合併重組方式，已整合出12座每座具備600,000至3,000,000噸年產能的大型煤礦。該等煤礦的全部已探明的煤炭資源存量以及陽泉天泰設計年產能分別約為305,820,000噸及6,260,000噸。

鑒於目前煤炭庫存出現全國性的大量囤積，影響並導致煤炭價格持續下跌至非常接近開採成本的水平，陽泉天泰於年內刻意放慢煤礦的技改及重建工程；以達到儘量減低經營成本之目的；同時也避免了目前許多煤礦經營者在虧損狀態下銷售煤炭的情況。縱然如此，陽泉天泰於本年度仍然錄得經營虧損。本集團因此攤佔陽泉天泰虧損金額約138,300,000港元(2012年：79,300,000港元)。

為解決來自陽泉天泰這虧損包袱的困局，董事會正積極地評估若干有關重組陽泉天泰的建議方案。

年內國際原油價格在每桶約80-101美元區間波動，並且大部分時間在接近區間的下限運行，價格較去年同期每桶約90-105美元為低，為中海油氣締造盈利空間。此外得利於中海油氣努力實施差別化產品策略，生產重點放於高毛利率產品，致使經營業績錄得較好表現。在原油價格沒有出現大幅上漲的前提下，預計於未來年度，中海油氣可望進一步提高盈利水平。

發展策略

本集團維持透過擴大其於電力及石化產品方面的現有投資規模作為其增長策略。董事會相信該增長策略最終可延展經常性收益的來源及擴大經常性盈利的金額。

美國經濟大致上處於持續復甦的軌道，將於2014年稍後時間或明年逐步終止量化寬鬆政策。全球金融市場將無可避免地受到影響並且抑制美國以外全球其他地區仍然疲弱的經濟復甦動力。

在中國大陸，疲弱的環球經濟嚴重地影響出口相關板塊。為保障可持續增長，國務院目前的政策重點是透過城鎮化鼓勵國內消費市場。這政策對本集團之主營業務幫助有限。

AUDITOR'S REMUNERATION

The Group's consolidated financial statements for the year ended 31 December 2013, were audited by Deloitte Touche Tohmatsu ("Deloitte") at a total fees of HK\$2.3 million. The said audit fee was approved by the Audit Committee and endorsed by the Board. In addition, the Group also paid fees of not more than HK\$0.2 million in aggregate to Deloitte for the provision of taxation services during the 2013.

The Audit Committee considers that the taxation services did not (in terms of the nature of the services and the amount of fees paid in relation to the audit fees) affect the independence of Deloitte.

(C)

Except as described below, the application of the new and revised HKFRSs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

New and revised Standards on consolidation, joint arrangements, associates and disclosures

In the current year, the Group has applied for the first time the package of five standards on consolidation, joint arrangements, associates and disclosures comprising HKFRS 10 “Consolidated financial statements”, HKFRS 11 “Joint arrangement”, HKFRS 12 “Disclosure of interests in other entities”, HKAS 27 (as revised in 2011) “Separate financial statements” and HKAS 28 (as revised in 2011) “Investments in associates and joint ventures”, together with the amendments to HKFRS 10, HKFRS 11 and HKFRS 12 regarding transitional guidance.

The impact of the application of these standards is set out below:

Impact of the application of HKFRS 12

HKFRS 12 is a new disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the application of HKFRS 12 has resulted in more extensive disclosures in the consolidated financial statements (please see notes 20, 21, 22 and 51 for details).

HKFRS 13

The Group has applied HKFRS 13 for the first time in the current year. HKFRS 13 establishes a single source of guidance for, and disclosures about, fair value measurements. The scope of HKFRS 13 is broad: the fair value measurement requirements of HKFRS 13 apply to both financial instrument items and non-financial instrument items for which other HKFRSs require or permit fair value measurements and disclosures about fair value measurements, except for share-based payment transactions that are within the scope of HKFRS 2 “Share-based payment”, leasing transactions that are within the scope of HKAS 17 “Leases”, and measurements that have some similarities to fair value but are not fair value (e.g. net realisable value for the purposes of measuring inventories or value in use for impairment assessment purposes).

HKFRS 13 defines the fair value of an asset as the price that would be received to sell an asset (or paid to transfer a liability, in the case of determining the fair value of a liability) in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions. Fair value under HKFRS 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique. Also,

HKFRS 13 (para 10) also requires the fair value of a liability to be determined based on the price that would be received to transfer the liability to another party in an orderly transaction under current market conditions at the measurement date. HKFRS 13 (para 10) also requires the fair value of a liability to be determined based on the price that would be received to transfer the liability to another party in an orderly transaction under current market conditions at the measurement date.

Amendments to HKAS 1 “Presentation of items of other comprehensive income”

The Group has applied the amendments to HKAS 1 “Presentation of items of other comprehensive income”. Upon the adoption of the amendments to HKAS 1, the Group’s “statement of comprehensive income” is renamed as the “statement of profit or loss and other comprehensive income” and the “income statement” is renamed as the “statement of profit or loss”. The amendments to HKAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. Furthermore, the amendments to HKAS 1 require additional disclosures to be made in the other comprehensive income section such that items of other comprehensive income are grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis — the amendments do not change the option to present items of other comprehensive income either before tax or net of tax. The amendments have been applied retrospectively, and hence the presentation of items of other comprehensive income has been modified to reflect the changes. Other than the above mentioned presentation changes, the application of the amendments to HKAS 1 does not result in any impact on profit or loss, other comprehensive income and total comprehensive income.

HKFRS 9 Financial instruments

HKFRS 9 issued in 2009 introduces new requirements for the classification and measurement of financial assets. HKFRS 9 was subsequently amended in 2010 to include the requirements for the classification and measurement of financial liabilities and for derecognition.

Key requirements of HKFRS 9 are described as follows:

- All recognised financial assets that are within the scope of HKAS 39 “Financial instruments: Recognition and measurement” are subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent reporting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.

HKFRS 9 Financial instruments (C 2)

- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, HKFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability’s credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value of financial liabilities attributable to changes in the financial liabilities’ credit risk are not subsequently reclassified to profit or loss. Under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss was presented in profit or loss.

The directors of the Company anticipate that the adoption of HKFRS 9 in the future may have a significant impact on the amounts reported in respect of the Group’s financial assets, for example, certain of the Group’s and the Company’s available-for-sale investments currently measured at cost less impairment may have to be measured at fair value at the end of subsequent reporting periods, with changes in the fair value being recognised in profit or loss. However, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

2. 應用新訂及經修訂之香港財務報告準則(「香港財務報告準則」)(續)

香港財務報告準則第9號金融工具(續)

- 就指定為於損益表按公允值處理的金融負債之計量而言，香港財務報告準則第9號規定該金融負債之信貸風險變動以致該負債公允值變動之金額於其他全面收益內呈列，除非於其他全面收益中確認該負債信貸風險變動影響會導致或擴大損益上之會計錯配。金融負債之信貸風險引致之金融負債公允值變動其後不會重新分類至損益表。根據香港會計準則第39號，指定為於損益表按公允值處理的金融負債之整筆公允值變動金額於損益表呈列。

本公司董事預計採納香港財務報告準則第9號可能會對有關本集團金融資產之已呈報金額構成重大影響，例如，本集團及本公司若干現時按成本扣除減值計量之可供出售投資可能須於其後報告期末按公允值計量，而公允值變動則於損益表確認。然而，在詳細檢討完成前對該影響作出合理估計並不可行。

3. Significant Accounting Policies (C)

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below:

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including special purpose entities) controlled by the Company and its subsidiaries. Control is achieved where the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to affect the investee's financial performance.

3. Significant Accounting Policies (C 4)

Basis of consolidation (C 4)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statement of profit or loss from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between subsidiaries are eliminated on consolidation.

3. Significant Accounting Policies (C)

Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after re-assessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets.

業務合併

收購業務採用收購法入賬。業務合併之轉讓代價按公允值計量，而計算方法為本集團所轉讓之資產於收購日之公允值、本集團對所被購者原擁有人產生之負債及本集團發行股本權益的總額以置換被購者之控制權。有關收購涉及之費用一般於產生時於損益表中確認。

於收購日期，所收購之可識別資產及所承擔之負債乃按彼等之公允值確認。

商譽之計算是以所轉讓之代價、於被購者中非控股權益所占金額及收購方以往持有的被購者股權之公允值(如有)之總和，扣除於收購日期可供識別資產及承擔的負債之淨額後，所超出之差額計量。倘經重新評估後，被購者的可識別淨資產與所承擔的負債於收購日期之淨額、非控股權益於被購者中所佔金額以及收購方以往持有的被購者股權之公允值(如有)之總和高於轉讓之代價，則該差額即時於損益表內確認為折價購買收益。

非控股權益屬現時擁有者權益且於清盤時賦予其持有人可按比例分佔該實體之淨資產，可初步按公允值或非控股權益應佔被購者可識別淨資產的已確認金額按比例計量。

Business combinations (C 4)

The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value or, when applicable, on the basis specified in another HKFRS.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

Goodwill (C)

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, and whenever there is an indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit to which goodwill has been allocated is tested for impairment before the end of that reporting period. When the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit, and then to the other assets of the unit on a pro rata basis based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

Investments in subsidiaries

Investments in subsidiaries are stated in the Company's statement of financial position at cost (including deemed capital contribution), less any identified impairment loss. Income from investments in subsidiaries is accounted for by the Company when the Company's right to receive the dividend payment has been established.

Investments in associates and a joint venture

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

Investments in associates and a joint venture

(C 4)

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates and joint venture are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of associates and joint venture used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of profit or loss and other comprehensive income of the associate. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that associate or joint venture.

Investments in associates and a joint venture

(C ㄣ)

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the non-current asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at fair value. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss.

持作銷售之非流動資產

倘非流動資產之賬面值將主要是透過一項出售交易而非透過持續使用收回，則分類為持作銷售。是項條件僅於銷售極可能達成而該非流動資產可於現況下即時出售唯可受制於出售比等資產的一般性條件及慣例方算符合。管理層必須致力促成出售，即預期分類日期起計一年內完成銷售方符合確認資格。

分類為持作銷售之非流動資產乃按其過往賬面值與公允值之較低者減出售成本計量。

投資物業

投資物業是指持作賺取租金及 或資本增值的物業。

投資物業於首次確認時按成本包括任何相關的直接支出計量。於首次確認後，投資物業是以公允值計量。投資物業的公允值變動所產生的收益或虧損於產生期間直接確認於損益表。

當投資物業被出售或該投資物業永久不再被使用，或預期出售該物業將不會產生未來經濟利益時，該項投資物業不再被確認。因不再確認為資產而產生的任何收益或虧損(按出售所得款項淨額與資產的賬面值之差額計算)於損益表內入賬。

Property, plant and equipment

Property, plant and equipment including leasehold land (classified as finance lease) and buildings held for use in production or supply of goods or services, or for administrative purposes (other than construction in progress) are stated in the consolidated statement of financial position at cost or fair value less subsequent accumulated depreciation and accumulated impairment loss, if any.

Construction in progress includes property, plant and equipment in the course of construction for production or for its own use purposes. Construction in progress is carried at cost less any recognised impairment loss. Construction in progress is classified to the appropriate category of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Leasehold land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the consolidated statement of financial position at their revalued amount, being the fair value at the date of revaluation less any subsequent accumulated impairment losses and subsequent accumulated depreciation. Revaluations are performed with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair values at the end of the reporting period.

在建工程指正在建造以供生產或自用之物業、廠房及設備。在建工程以成本減累計減值虧損列賬。在建工程於完成後可供用於擬定用途時重新分類為物業、廠房及設備之適當類別。此等資產之折舊基準與其他物業資產相同，乃於資產可供於擬定用途時開始計提。

持有用作生產或提供貨品或服務用途，或用作行政管理用途的租賃土地及樓宇，乃按其重估值於綜合財務狀況表內列賬，而重估值即指重估當日之公允值減去任何其後之累積減值虧損及其後之累積折舊。由於定期進行重估，賬面值與於本報告期末所釐定之公允值沒有重大差距。

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the normal course of business, net of discounts and sales related tax.

The income from investment in distressed assets through establishment of a special purpose vehicle is recognised on a time basis by reference to the estimated future cash flows and at the effective interest rate. The effective interest rate is the rate that exactly discounts the estimated future cash inflows arising from recoveries or collection, net of the estimated future cash outflows arising from directly attributable costs such as management fee and incentive bonus through the expected life of the distressed assets, to the assets' net carrying amounts on initial recognition.

Other interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Other interest income from a financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Commission income and consultancy income are recognised when services are provided.

Financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when a group entity becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

The Group's financial assets are classified into one of three categories: financial assets at fair value through profit or loss ("FVTPL"), loans and receivables, and available-for-sale financial assets. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract that is a derivative financial instrument.

Loans and receivables (C 續)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade receivables, deposits and other receivables, amounts due from associates/a joint venture/subsidiaries, pledged bank deposits, bank balances and cash and loan receivables) are measured at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment loss on financial assets below).

Investment in distressed assets through establishment of a special purpose vehicle is stated at amortised cost using effective interest method less impairment allowance. The impairment allowances are made on the interest in distressed assets when there is objective evidence of impairment as a result of the occurrence of certain loss events that will impact the estimated future cash flows, and are measured as the difference between the carrying amount of the investment in distressed assets through establishment of a special purpose vehicle and the present value of the estimated future cash flows discounted at the original effective interest rate. The adjustment is recognised as impairment loss in profit or loss. Where the actual future net cash flows are more than expected, the revised cash flow will be discounted using the original effective interest rate. The adjustment to the carrying amount is credited in profit or loss to reflect the revised cash flows discounted using the original effective interest rate.

Financial instruments (C)

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of the reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

For an available-for-sale equity investment, a significant or prolonged decline in the fair value of that investment below its cost is considered to be objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial asset, such as trade receivables which are assessed not to be impaired individually are, in addition, subsequently assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, observable changes in national or local economic conditions that correlate with default on receivables.

金融資產之減值

除了於損益表按公允值處理的金融資產外，金融資產於各本報告期末評估減值指標。倘若有客觀佐證顯示，因一項或多項事故於首次確認金融資產後出現而導致該金融資產被視為減值，其估計未來現金流量已受影響。

就可供出售之股本投資而言，相關投資的公允值出現重大或長期下跌並低於該項投資的成本，則被視為減值的客觀佐證。

就所有其他金融資產而言，減值之客觀佐證可以包括：

- 發行人或交易方出現重大財政困難；或
- 拖欠或逾期支付利息或本金；或
- 可能出現借貸人將陷入破產或財務重組。

若干類別的金融資產如應收賬款，不會就減值作單獨考核而是另外在其後以整體性基準進行減值考核。一組應收款項的減值之客觀性佐證可以包括本集團以往收款的經驗、組合內逾期付款次數的增加並超逾平均的信用期、能察覺的國家性或地區性經濟狀況引致應收款項無法收回。

For financial assets carried at amortised cost, the amount of impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, other receivables, amounts due from associates/joint venture/subsidiaries, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When other receivables, trade receivables, amounts due from associates/joint venture/subsidiaries are considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

金融資產之賬面值因其減值虧損而直接減少，惟應收賬款、其他應收款及應收聯營公司、合營公司、附屬公司款之賬面值則透過使用撥備賬減少。所有撥備賬賬面值之變動於損益表內確認。倘應收賬款、其他應收款及應收聯營公司、合營公司、附屬公司款應收賬款被認為不可收回，則於撥備賬內撇銷。其後收回之已撇銷數額計入損益表。

Financial instruments (C)

Financial instruments are measured at amortised cost, unless they are designated as fair value through profit or loss.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Other financial liabilities

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Other financial liabilities

Other financial liabilities including borrowings, trade payables, other payables and amounts due to subsidiaries are subsequently measured at amortised cost, using the effective interest method.

3. Significant Accounting Policies (C)

Impairment losses on assets other than goodwill (see the accounting policy in respect of goodwill above)

At the end of the reporting period, the Group reviews the carrying amounts of its assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount.

An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount under another standard, in which case the impairment loss is treated as a revaluation decrease under that standard.

除商譽外之資產減值虧損(見上述有關商譽之會計政策)

於本報告期末，本集團檢測其有限可使用年限資產之賬面值以決定該等資產有否出現任何減值虧損跡象。如有任何跡象產生，該資產之可回收金額需估算以決定減值虧損(如有)之程度。當不可能估算單一資產之可產生回收金額，本集團估算該資產屬於之現金產生單位之可回收金額。當合理的及一致之分配基準可識別時，公司資產可分配於個別現金產生單位，或其分配於現金產生單位之最少團體以識別為合理及一致之分配基準。

可回收金額是公允值減出售之成本及使用價值之較高者。於評估使用價值，估計將來現金流量以稅前貼現率去計算其現值以反映現時市場評估金錢的時間價值及該資產之風險，將來現金流量之估計並不可調整。倘若資產之可回收金額(或現金產生單位)之估計是少於其賬面值，則該資產之賬面值(或現金產生單位)需減少到其可回收金額。

一項減值虧損即時在損益表內被確認，除非有關資產是根據另一項準則以重估值列賬，則有關減值虧損將根據該準則而被視為重估值減少。

3. Significant Accounting Policies (C ㄟ)

Impairment losses on assets other than goodwill (see the accounting policy in respect of goodwill above) (C ㄟ)

Where an impairment loss subsequently reverses, the carrying amount of the assets (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately, unless the relevant asset is carried at a revalued amount under another standard, in which case the reversal of the impairment loss is treated as a revaluation increase under that standard.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before taxation as reported in the consolidated statement of profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

3. Significant Accounting Policies (Continued)

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period, except for exchange differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised directly in other comprehensive income, in which cases, the exchange differences are also recognised directly in other comprehensive income.

Foreign currencies (C)

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations and those denominated in RMB are translated into the presentation currency of the Group (i.e. HKD) using exchange rates prevailing at the end of the reporting period. Income and expenses are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (attributed to non-controlling interests as appropriate). On the disposal of a foreign operation (i.e. partial disposal of an interest in a joint arrangement that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

3. Significant Accounting Policies (C 續)

Leasing (C 續)

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases, in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

租賃(續)

本集團作為出租人

營運租賃之租金收入乃按有關租約年期以直線基準於損益表內確認。

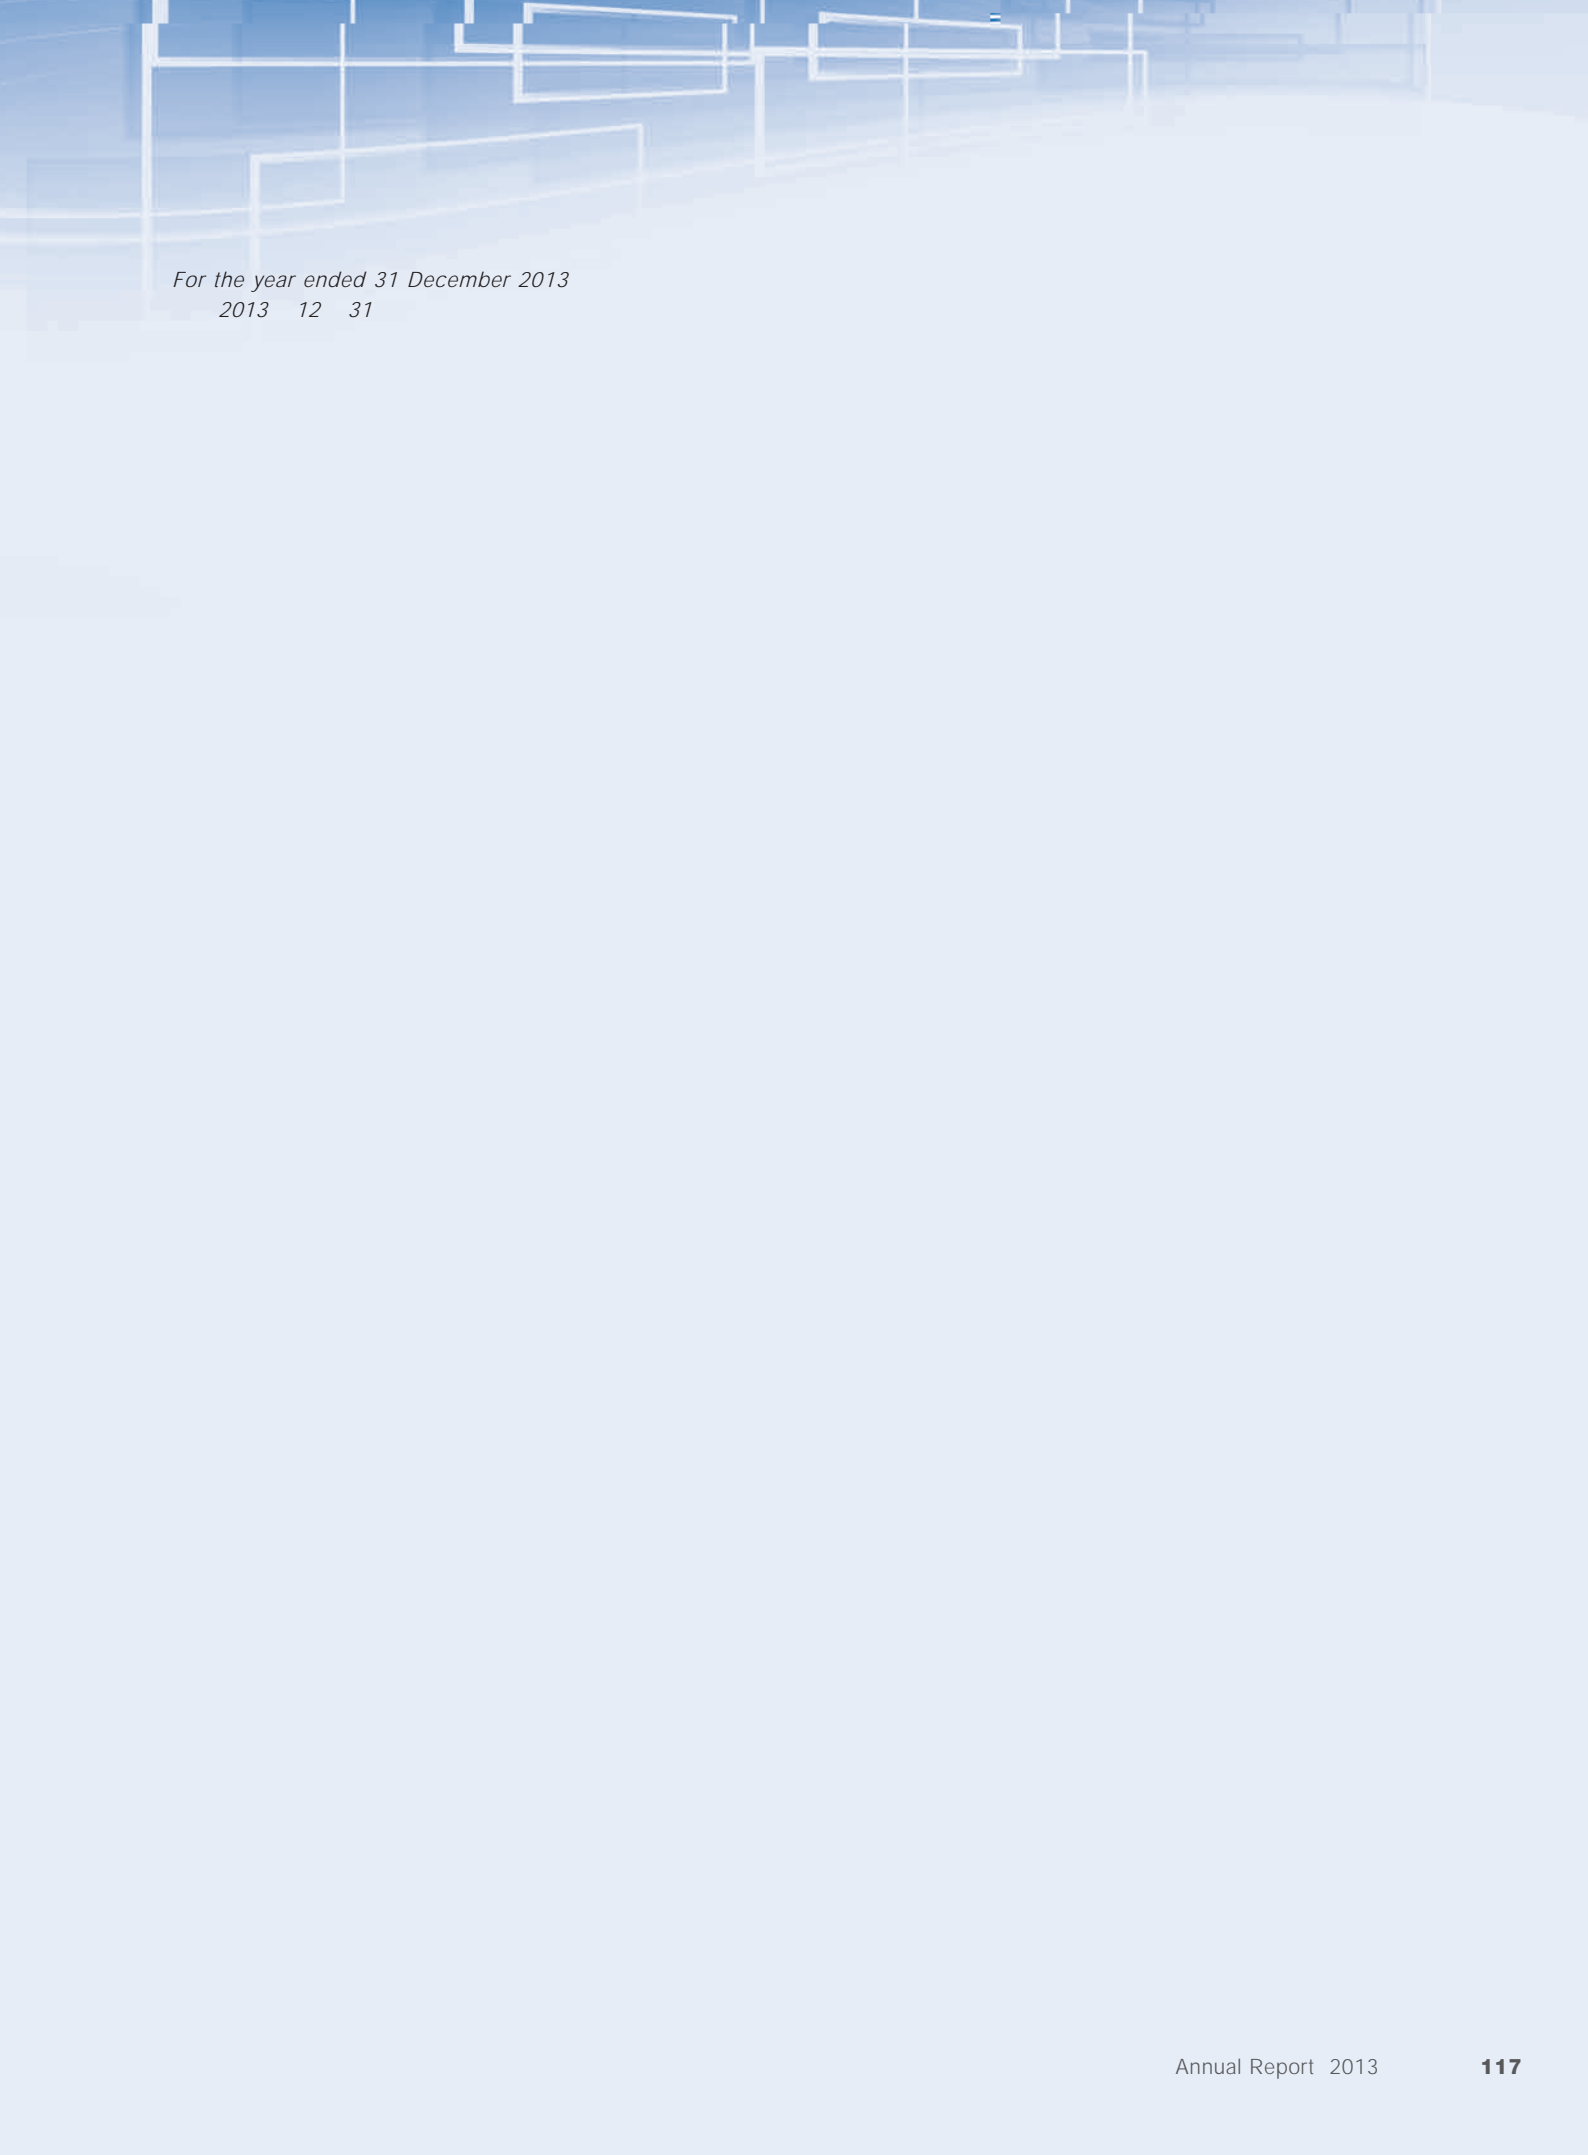

本集團作為承租人

營運租賃費用乃於有關租約年期內以直線基準確認為支出。作為促使訂立營運租賃之已收及應收獎勵之利益於租約年期內以直線基準確認為租金開支中扣減。

倘獲取促使訂立營運租賃之租賃獎勵，該等獎勵確認為負債。獎勵之利益總額以直線基準確認為租金開支扣減。

租賃土地及樓宇

倘租約包括土地及樓宇部份，則本集團根據對各部份之擁有權附帶之絕大部份風險及回報是否已轉讓予本集團之評估，獨立評估將各部份分類為融資或營運租賃，除非顯然兩個部份均為營運租賃，則在該情況下，整份租約分類為營運租賃。具體而言，最低租賃付款(包括任何一次過預付款項)乃按租賃土地部份及樓宇部份於租約開始時之租賃權益相對公允值比例於土地及樓宇部份之間分配。

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimate is recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgment in applying accounting policies

The following is the critical judgment that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

The Group's investments in loan receivable with embedded derivative represented debt securities with embedded conversion right to convert into equity shares of underlying companies. The Group designated this investment as financial assets at FVTPL. The fair value of the loan receivable with embedded derivative was determined by directors of the Company with reference to the valuation report provided by an independent professional valuer. Details of the assumptions used to determine the fair value by the independent professional valuer were set out in note 28.

In impairment testing, the Group determines the recoverable amount of the cash generating unit to which the assets belongs. Determining whether impairment needs to be provided requires an estimation of future cash flows expected to arise from the cash generating units. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash generating unit and a suitable discount rate in order to calculate the present value. Where the actual future cash flows are less than expected, a material impairment loss may arise. Details of the recoverable amount calculation for cash generating units are set out in note 19.

Interest rate risk (C)

The Group and the Company have not used any interest rate swaps in order to mitigate its exposure associated with fluctuations relating to interest cash flows. However, management monitors interest rate exposure and will consider other necessary actions when significant interest rate exposure is anticipated. In addition, the Group has concentration risk on its floating-rate loan receivables, bank balances and borrowings which expose the Group significantly towards the change in Hong Kong interbank offered rates ("HIBOR") and the People's Bank of China ("PBOC") interest rate.

The sensitivity analyses below have been determined based on the exposure to the floating-rate borrowings and other payable to non-controlling shareholder of a subsidiary, floating-rate amounts due from subsidiaries, variable-rate loan receivables and variable-rate bank balances at the end of the reporting period and the reasonably possible change taking place at the beginning of each year and held constant throughout the year. The directors of the Company remained using 150 (2012: 150) basis points for assessing interest rate risk on the above balances (except for bank balances) after considering the impact of the volatile financial market conditions. The directors of the Company used 10 (2012: 10) basis points for assessing interest rate risk on bank balances because they considered that the fluctuations on the interest rate on bank balances would be less significant. If interest rates had been 150 basis points (2012: 150 basis points) higher/lower for the above balances (except for bank balances) and 10 basis points (2012: 10 basis points) higher/lower for bank balances and all other variables were held constant, the potential effect on post-tax profit for the year is as follows:

Sensitivity analysis is prepared to demonstrate the effect of foreign exchange differences by 10% change in exchange rate of the functional currency (mainly RMB) against the relevant foreign currencies of the Company and respective subsidiaries, assuming all other variables were held constant. A positive number below indicates an increase in post-tax profit where the functional currencies weaken 10% against the relevant foreign currencies of the Company and respective subsidiaries. In the opinion of the directors of the Company, the sensitivity analysis above are unrepresentative of the inherent market risk as the pricing model used in the fair value valuation of the loan receivables with embedded derivative involves multiple variables and certain variables are interdependent.

As at 31 December 2013 and 2012, the Group and the Company were also exposed to interest rate risk through its loan receivable with embedded derivative.

The sensitivity analysis below had been determined based on the exposure to interest rate risk at end of the reporting period. If the interest rate, which was also used as key input in the valuation of loan receivable with embedded derivative (particulars are set out in note 28), had been 150 basis points higher/lower, assuming all other variables were held constant, the impact to the Group and the Company would be:

Fair value measurements and valuation process

The fair values of the investment properties of the Group and the Company at 31 December 2013 and 2012 have been arrived at on the basis of valuations carried out on respective dates by Vigers Appraisal & Consulting Limited ("Vigers"), an independent qualified professional valuer not connected with the Group. Vigers is member of the Institute of Valuers.

The fair value was arrived at by reference to comparable sales transactions available in the relevant market or by investment approach, where the market rentals of all lettable units of the properties are assessed and discounted at the market yield expected by investors for this type of properties. The market rentals are assessed by reference to the rentals achieved in the lettable units of the properties as well as other lettings of similar properties in the neighbourhood. The capitalisation rate is determined by reference to the yields derived from analysing the sales transactions of similar commercial properties in Hong Kong and adjusted to take into account the market expectation from property investors to reflect factors specific to the Group's investment properties.

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The investment properties measured at fair value subsequently to initial recognition, are grouped to Level 3 based on the degree to which the inputs to the fair value are observable and the significance of these inputs.

There was no transfer into or out of Level 3 for both years.

At the end of the reporting period, the directors of the Company work closely with the independent qualified professional valuer to establish

19. Goodwill (C 續)

Included in the carrying value of goodwill as at 31 December 2013, HK\$7,001,000 (2012: HK\$7,001,000) has been allocated to the cash generating unit for property management ("Unit A") and HK\$39,462,000 (2012: HK\$39,462,000) has been allocated to cash generating unit for production and trading of petrochemical products ("Unit B").

The recoverable amount of Unit A has been determined based on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period based on an estimated growth rate of 3% (2012: 3%) with a discount rate of 12% (2012: 12%). Cash flows for further five years are extrapolated at zero growth rate. Another key assumption for the value in use calculations is the budgeted revenue and gross margin, which is determined based on the unit's past performance and management's expectations for the market development.

The recoverable amount of Unit B has been determined based on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by management covering a five-year period based on an estimated production capacity of Unit B with a discount rate of 11.8% (2012: 13.2%). Cash flows after the five years period are extrapolated at 2% (2012: 3%) growth rate. Another key assumption for the value in use calculations is the budgeted revenue and gross margin, which is determined based on the unit's past performance and management's expectations for the market development.

In the opinion of the directors of the Company, there is no impairment required as at the end of the reporting period.

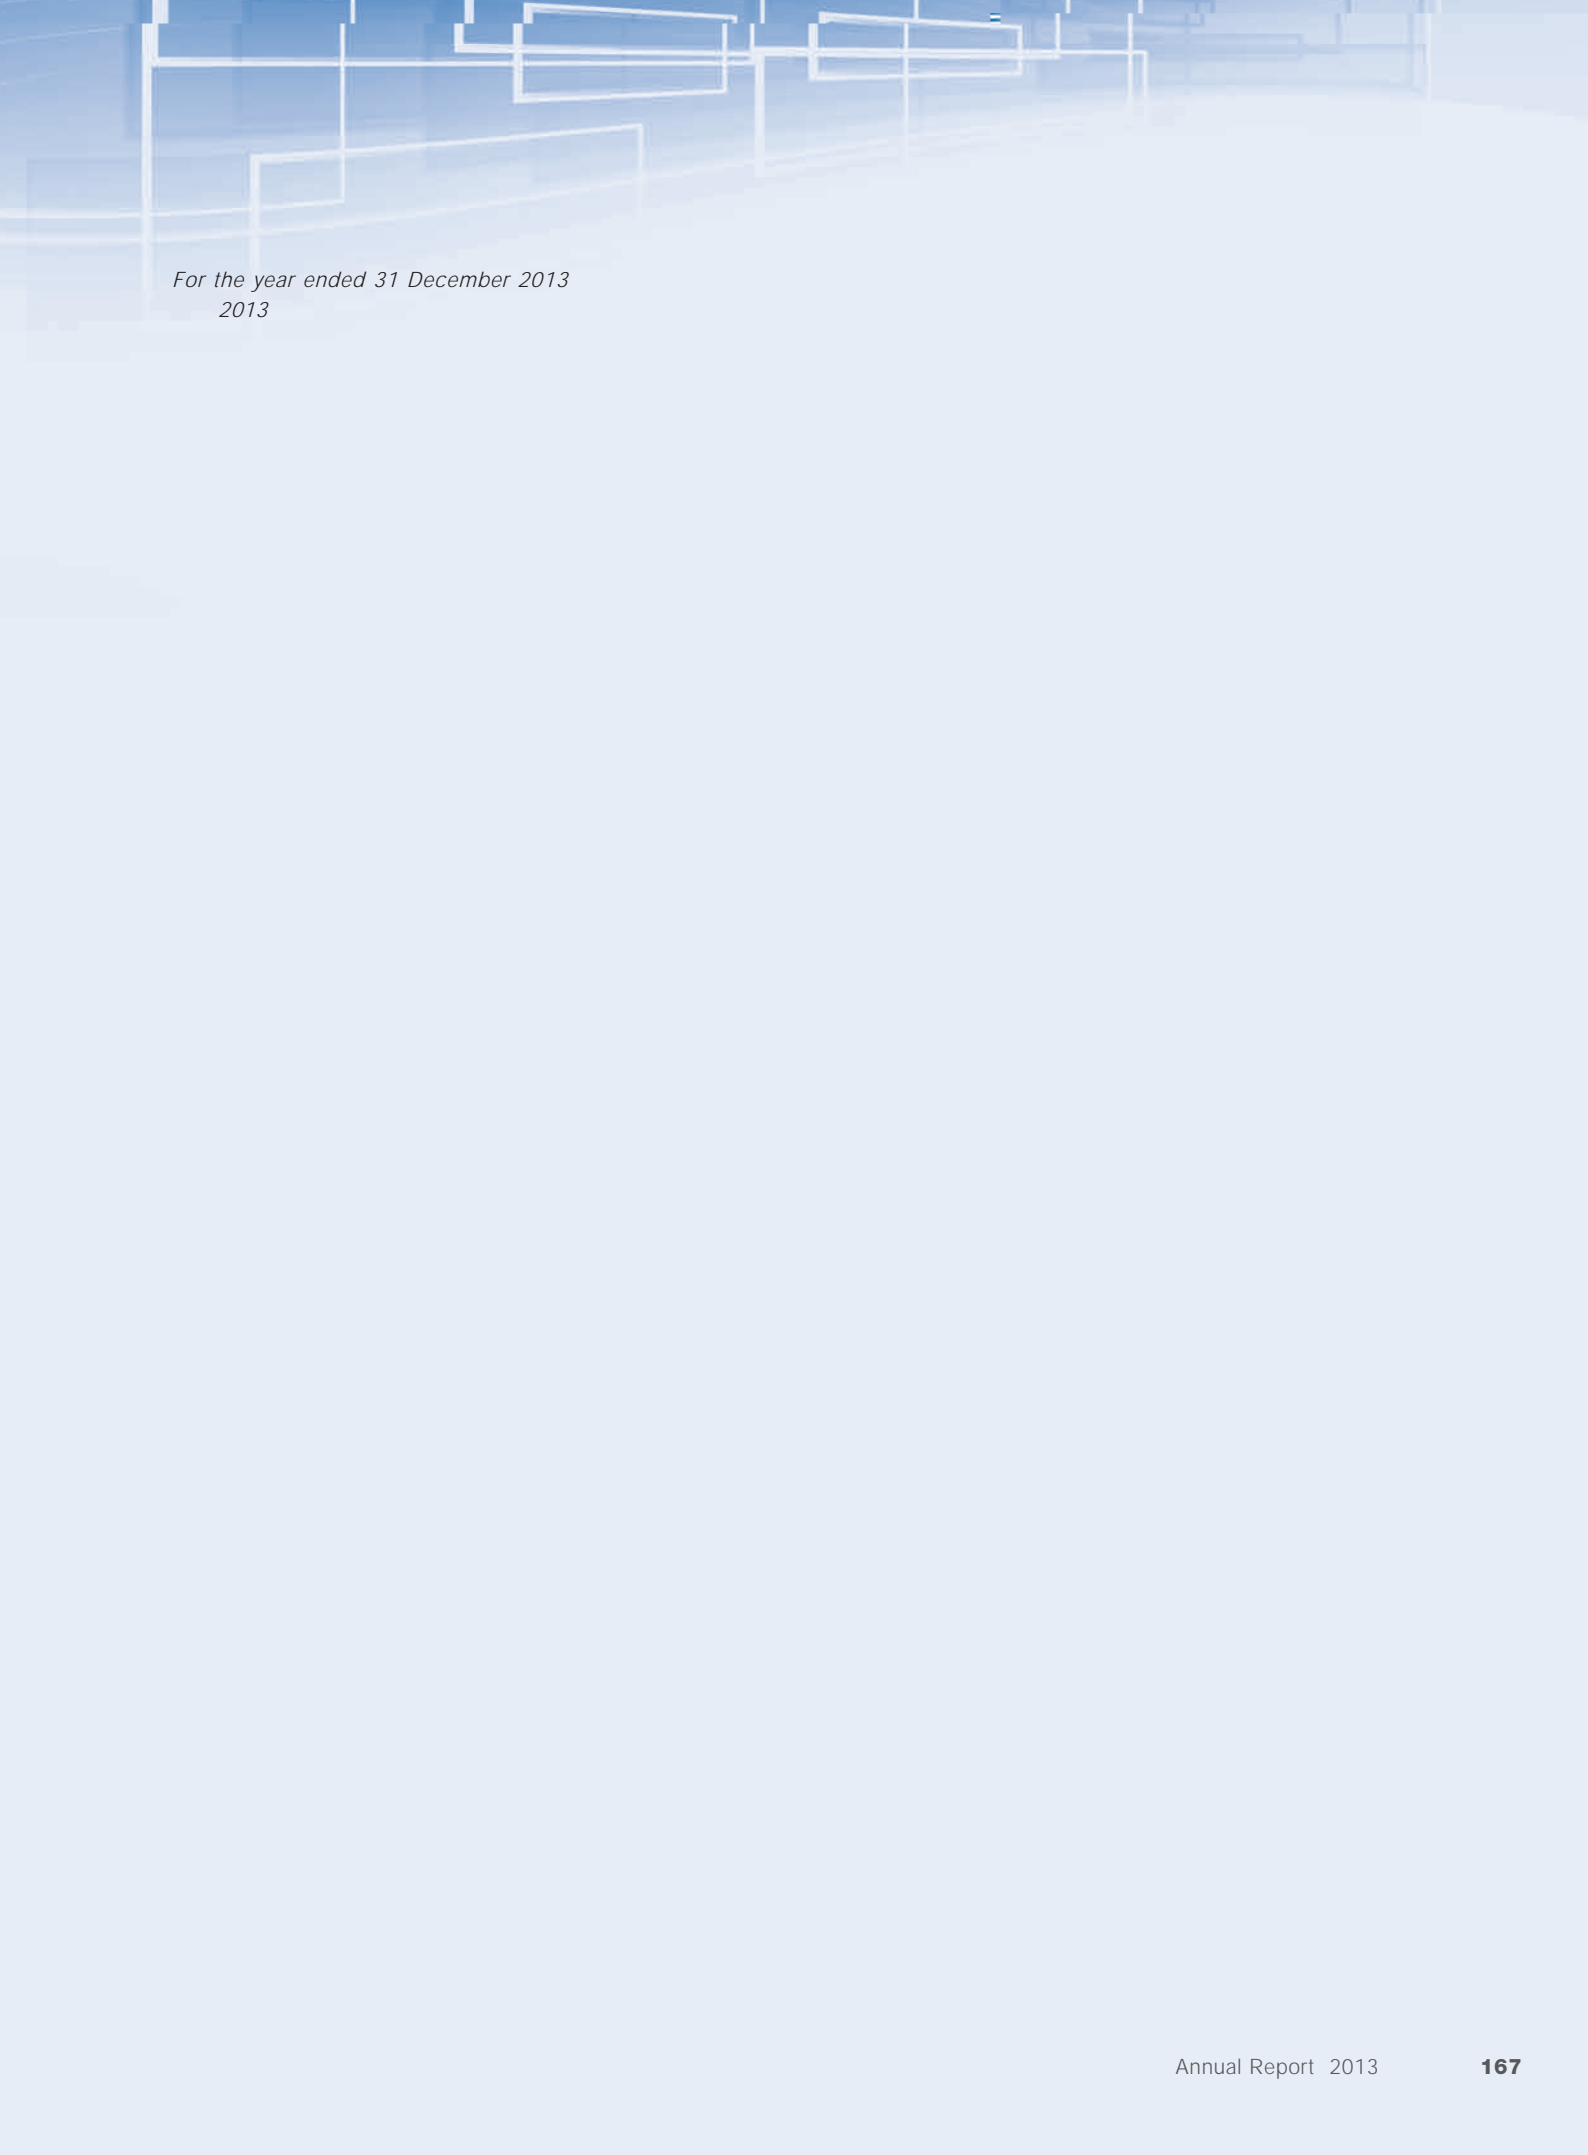

19. 商譽(續)

包含於2013年12月31日之商譽，賬面值7,001,000港元(2012年：7,001,000港元)是分配至物業管理之現金單位賬面值(「單位A」)及39,462,000港元(2012年：39,462,000港元)是分配至生產及銷售石油化工產品之現金單位之賬面值(「單位B」)。

單位A之可回收金額乃基於使用價值計算釐定。計算方法使用經管理層批核、基於估計3%(2012年：3%)年增長率以12%(2012年：12%)貼現率計算的五年財政預算所得的現金流預測。其後五年之現金流推定為零增長率計算。使用價值的另一項主要假定為預算收入及毛盈利率，乃按該單位過往之表現及管理層對市場發展之預期釐定。

單位B之可回收金額乃基於使用價值計算釐定。計算方法使用經管理層批核、基於估計單位B之生產能力以11.8%(2012年：13.2%)。貼現率計算的5年財政預算所得的現金流預測。其後5年之現金流推定為2%(2012年：3%)年增長率。使用價值計算的另一項主要假定為預算收入及毛利率，乃按該單位過往之表現及管理層對市場發展之預期釐定。

本公司之董事意見認為於本報告期末並沒有減值之需要。

Unlisted equity securities represent investments in unlisted equity securities issued by private entities. The business of these companies include, but not limited to power, winery and financial services. They are measured at cost less impairment at the end of the reporting period because the range of reasonable fair value estimates is so significant that the directors of the Company are of the opinion that their fair values cannot be measured reliably. During the year ended 31 December 2013, gain on disposal of unlisted available-for-sale investments of HK\$163,683,000 (2012: 54,683,000) has been recognised in profit or loss. 附註：

非上市股本證券乃指投資於由私人實體發行之非上市股本證券。該等公司之業務包括但不限於電力、釀酒及金融服務行業。由於估計所得的合理公允值範圍太大，本公司董事意見認為其公允值無法可靠地計量，因此該等投資乃於報告期末以成本扣除減值計量。於截至2013年12月31日之年度內，出售非上市可供出售投資之收益為163,683,000港元(2012年：54,683,000港元)已於損益表中確認。於截至2013年12月31日確認之總出售收益之40,921,000港元為買方代本集團承擔之稅金。

In the opinion of the directors of the Company, no impairment loss is considered necessary in respect of these balances as they have assessed the financial strength and repayment ability for the borrowers.

於本報告期末之應收貸款均屬未到期及無須減值。本集團沒有為應收貸款計提減值虧損。本公司董事已評估借款人之財務狀況及還款能力，其意見認為並沒有為該餘額作減值虧損之需要。
